

**CAUTION!**

**May be too intense for the uninitiated!**

Looking for the ultimate in power and durability? Look no further than the KTBL6500V from TMC Power Equipment. With its 3.9hp, 64.7cc Kawasaki® engine powering its aluminum fan, the KTBL6500V blows an incredible 551cfm of air out of the pipes at category 5+ speeds of up to 201 mph. To ensure that this power is available to you for the longest period of time, the rugged components such as the heavy-duty air filtration system and the unique single-piece fan housing and metal frame team up to maximize durability. Knowing that it wouldn't do you any good if you couldn't comfortably use this power and durability, the KTBL6500V boasts an impressive list of intelligently designed features such as an extended throttle lever arm, an ergonomic pipe handle, a fully padded backrest, and easily adjusted cinching straps.

The best keep getting better! TMC Power Equipment...Proven by Professionals.

**FEATURES & SPECIFICATIONS**

- A powerful 65cc Kawasaki engine with a dual ringed piston and a four bolt cylinder head generates 3.9 hp and is the epitome of power and durability.
- A single piece fan housing that, unlike other blowers, eliminates seams that separate over time for unmatched durability and the best transfer of air to the work surface.
- A lightweight aluminum fan ideally mated to the single-piece fan housing not only maximizes airflow generation and transfer to the pipes but also maximizes engine ventilation for longer engine life.
- A heavy duty metal frame protects the blower during use and transport.
- A heavy duty air filtration system protects against dirt and dust present in the harshest environments.
- A fully padded backrest, easily adjusted cinching straps, an extended throttle lever mount, and an ergonomically designed pipe handle provide hours of comfortable operation.
- A 68oz fuel tank ensures longer run-times between fill-ups.

**ENGINE**

Displacement (cc):	64.7
Power (hp):	3.9
Ignition:	Solid state
Carburetor:	Diaphragm w/ purge pump

**AIRFLOW**

Fan case:	Single piece molded plastic
Fan Type:	Aluminum
Fan speed (rpm):	6,500
Airflow volume - housing (cfm):	805
Airflow volume - pipe (cfm):	551
Maximum air speed (mph):	201

**EMISSIONS**

Output Noise (dBA):	73.7
Air quality compliance:	2005 CARB / EPA

**GENERAL**

Dimensions (in):	14 (L) x 18 (W) x 18 (H)
Dry weight (lbs):	23.8
